

# The Heart of Kasa

## Vibrant Flavors

We want to introduce you to the vibrant flavors eaten in Indian households across the globe. Here at Kasa Indian Eatery, we take pride in freshly grinding spices, marinating meats in our special Tandoori marinades for 24 hours and crafting small batch vegetarian specials daily. We stick to a limited menu so that we can cook you fresh food all day long. Right down to every chutney, hot sauce or morsel of cardamom-scented rice, our food bursts with flavor and color.

## VALUE

We think great food can be affordable and quick. We pride ourselves on serving delicious meals that rival fine dining, but doing so in a fun, casual environment and at reasonable prices.

## CONNECTION

Kasa belongs to the community just as much as it does to us. Connecting with you is our favorite part of running Kasa. We strive to be warm, friendly, accommodating to our customers while being a force for good in supporting community organizations.

*"We want to make Indian food that would make our grandmothers proud!"*

— Anamika Chef & Co-Owner
